VOLUMETRIC WEIGHT CHARGE

The charge for each shipment depends on the combination of size and weight (volumetric system of the International Air Transport Association IATA). If the volumetric weight of the shipment is greater than the real actual weight (cases of light but voluminous shipments), then the charge is based on the volumetric weight and is calculated by multiplying the shipment's three dimensions and then by dividing by 5.000.

$$\text{Volumetric Weight (kg)} = \frac{(\text{length}) \times (\text{width}) \times (\text{Height}) \text{ in centimeters}}{5.000}$$

CLARIFICATIONS

The delivery time is 2–4 working days. For shipments, eligible for customs' processing, with incomplete or non-existent address, or without contact information for the sender/receiver, as well as for door-to-door shipments, the estimated delivery time can be extended with 1-3 working days. In the case of exceeding the delivery time, DPD Greece does not have any liability for compensation. The packaging of the shipment is a responsibility of the sender. Appropriate packaging is a guarantee for the security of the parcel.
